Century Communities, Inc.
Notes to Unaudited Condensed Consolidated Financial Statements
June 30, 2019

1. Basis of Presentation

Century Communities, Inc. (which we refer to as “we,” “CCS,” or the “Company”), together with its subsidiaries, is engaged in the development, design, construction, marketing and sale of single-family attached and detached homes in the States of Alabama, Arizona, California, Colorado, Florida, Georgia, Indiana, Iowa, Michigan, Nevada, North Carolina, Ohio, South Carolina, Tennessee, Texas, Utah, and Washington. In many of our projects, in addition to building homes, we are responsible for the entitlement and development of the underlying land. We build and sell homes under our Century Communities and Wade Journey Homes brands. Our Century Communities brand targets a wide range of buyer profiles including: first time, first and second time move up, and lifestyle homebuyers, and provides our homebuyers with the ability to personalize their homes through certain option and upgrade selections. Our Wade Journey Homes brand solely targets first time homebuyers, sells homes through retail studios and the internet, and provides no option or upgrade selections. Our homebuilding operations are organized into the following five reportable segments: West, Mountain, Texas, Southeast, and Wade Journey Homes. Additionally, our indirect wholly-owned subsidiaries, Inspire Home Loans, Inc., Parkway Title, LLC, and IHL Home Insurance Agency, LLC, which provide mortgage, title and insurance services, respectively, to our home buyers have been identified as our Financial Services segment.

On June 14, 2018, we acquired the remaining 50% ownership interest in WJH, LLC (which we refer to as “WJH” or “Wade Journey Homes”) for \$37.5 million. WJH specializes in providing single family homes for first time buyers. On the acquisition date, WJH had operations in Alabama, Florida, Georgia, North Carolina and South Carolina.

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles (which we refer to as “GAAP”) for interim financial statements and pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (which we refer to as the “SEC”). In the opinion of management, the accompanying unaudited condensed consolidated financial statements reflect all adjustments consisting of normal recurring adjustments necessary for a fair presentation of our financial position and results of operations. Interim results of operations are not necessarily indicative of the results that may be achieved for the full year. The financial statements and related notes do not include all information and footnotes required by GAAP and should be read in conjunction with the consolidated financial statements for the year ended December 31, 2018, which are included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2018 that was filed with the SEC on February 13, 2019.

Principles of Consolidation

The condensed consolidated financial statements include the accounts of the Company, as well as all subsidiaries in which we have a controlling interest, and variable interest entities for which the Company is deemed to be the primary beneficiary. We currently do not have any variable interest entities in which we are deemed the primary beneficiary. All intercompany accounts and transactions have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Recently Adopted Accounting Standards

Leases

The Financial Accounting Standards Board (which we refer to as “FASB”) issued Accounting Standards Codification (ASC) 842, *Leases* (which we refer to as “ASC 842”) which requires the recognition of lease assets and lease liabilities by lessees for most leases. ASC 842 is effective for the Company beginning January 1, 2019 and interim periods within the annual period. We adopted ASC 842 under a modified retrospective approach using the option to apply the transition provisions on the effective date January 1, 2019. The modified retrospective approach allows the Company to carry forward our historical lease classification, and to present historical periods under legacy lease accounting guidance. The Company’s leases primarily consist of leases for office space, and computer and office equipment where we are the lessee.

[Table of Contents](#)

ASC 842 includes several practical expedients which we elected upon adoption including to (a) not reassess the lease classification for any expired or existing leases and (b) not reassess whether previously capitalized initial direct costs qualify for capitalization under ASC 842. Additionally, we elected to utilize hindsight when determining the lease term.

The adoption of ASC 842 resulted in the establishment of a right of use asset of \$17.7 million and a lease liability of \$18.7 million on our condensed consolidated balance sheet as of January 1, 2019. The adoption of ASC 842 did not impact stockholders’ equity.

Recently Issued Accounting Standards

In June 2016, the FASB issued Accounting Standards Update (ASU) 2016-13, *Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments* (which we refer to as “ASU 2016-13”), which changes the impairment model for most financial assets and certain other instruments. ASU 2016-13 changes the probable threshold for initial recognition of a credit loss in current GAAP to a model that reflects an entity’s current estimate of all expected credit losses. ASU 2016-13 is effective for our interim and annual reporting periods beginning January 1, 2020. We are currently evaluating the impact of ASU 2016-13 on our consolidated financial statements.

2. Reporting Segments

Our homebuilding operations are engaged in the development, design, construction, marketing and sale of single-family attached and detached homes in 17 states. We build and sell homes under our Century Communities and Wade Journey Homes brands. Our Century Communities brand is managed by geographic location, and each of our four geographic regions targets a wide range of buyer profiles including: first time, first and second time move up, and lifestyle homebuyers, and provides our homebuyers with the ability to personalize their homes through certain option and upgrade selections. Each of our four geographic regions is considered a separate operating segment. Our Wade Journey Homes brand solely targets first time homebuyers, sells homes through retail studios and the internet, and provides no option or upgrade selections. Our Wade Journey Homes brand currently has operations in eleven states and is managed separately from our four geographic regions, accordingly, it is considered a separate operating segment.

The management of our four geographic regions and Wade Journey Homes reports to our chief operating decision makers (which we refer to as “CODMs”), the Co-Chief Executive Officers of our Company. The CODMs review the results of our operations, including total revenue and income before income tax expense to determine profitability and to allocate resources. Accordingly, we have presented our homebuilding operations as the following five reportable segments:

- West (California and Washington)
- Mountain (Colorado, Nevada and Utah)
- Texas
- Southeast (Georgia, North Carolina, South Carolina and Tennessee)
- Wade Journey Homes (Alabama, Arizona, Florida, Georgia, Indiana, Iowa, Michigan, North Carolina, Ohio, South Carolina, and Texas)

We have also identified our Financial Services operations, which provide mortgage, title, and insurance services to our homebuyers, as a sixth reportable segment. Our Corporate segment is a non-operating segment, as it serves to support our homebuilding, and to a lesser extent our financial services operations, through functions, such as our executive, finance, treasury, human resources, accounting and legal departments. The following table summarizes total revenue and income before income tax expense by segment (in thousands):

3. Business Combinations

WJH, LLC - Wade Journey Homes

On June 14, 2018, we acquired the remaining 50% ownership interest in WJH for \$37.5 million, whereby WJH became a 100% owned subsidiary of the Company. We initially acquired a 50% ownership interest in WJH in November 2016 as part of a joint venture, which was accounted for under the equity method of accounting. Our Wade Journey Homes brand solely targets first time homebuyers in markets which are traditionally underserved by new homebuilders, sells homes through retail studios and the internet, and provides no option or upgrade selections. The acquired assets primarily include homes under construction that are in various stages of completion and are geographically dispersed. We determined that the fair value of the gross assets acquired was not concentrated in a single identifiable asset or group of similar identifiable assets. As the acquired assets and processes have the ability to create outputs in the form of revenue from the sale of single family residences, we concluded that the acquisition represents a business combination. We incurred \$0.4 million in acquisition costs.

Authoritative guidance on accounting for business combinations requires that an acquirer re-measure its previously held equity interest in the acquisition at its acquisition date fair value and recognize the resulting gain or loss in earnings. As such, we valued our previously held equity interest in WJH at June 14, 2018 at \$35.6 million, which was inclusive of an estimated discount for lack of control of \$1.9 million, and recognized a gain of \$7.2 million during the three months ended June 30, 2018.

The following table outlines the total consideration transferred, inclusive of cash acquired and the fair value of our previously held equity interest (in thousands):

Cash consideration transferred for 50% ownership interest	\$ 37,500
Previously held equity interest acquisition date fair value	35,625
Net assets acquired	<u>\$ 73,125</u>

The following table summarizes our estimates of the assets acquired and liabilities assumed as of the acquisition date (in thousands):

Cash and cash equivalents	\$ 9,464
Cash held in escrow	260
Accounts receivable	1,042
Inventories	156,828
Prepaid expenses and other assets	7,710

Total senior notes and revolving line of credit	94,231
Total liabilities	<u>109,096</u>
Fair value of assets acquired	<u>\$ 73,125</u>

Acquired inventories consist primarily of work in process inventories. We estimated the fair value of acquired work in process inventories based

upon the stage of production of each unit and a gross margin that we believe a market participant would require to complete the remaining development and requisite selling efforts. The stage of production, as of the acquisition date, ranged from recently started lots to fully completed single family residences. Amortizable intangible assets include acquired trade names and a non-compete agreement, which were estimated to have fair values of \$3.3 million and \$0.3 million, respectively, and are amortized over 10 years and 2 years, respectively.

The Company determined that WJH's carrying costs approximated fair value for all other acquired assets and assumed liabilities.

WJH's results of operations for the three and six months ended June 30, 2019, which include homebuilding revenues of \$109.1 million and \$198.6 million, respectively, and income before tax of \$8.3 million and \$12.3 million, respectively, are included in our accompanying condensed consolidated statement of operations. From the acquisition date, WJH's results of operations include homebuilding revenues of \$25.2 million, and loss before tax of \$0.2 million for the three and six months ended June 30, 2018.

Pro Forma Financial Information

Pro forma revenue and income before tax expense for the three and six months ended June 30, 2018 give effect to the results of the acquisition of WJH. The effect of the WJH acquisition is reflected as though the acquisition date was as of January 1, 2018. Unaudited pro forma income before tax expense adjusts the operating results of WJH to reflect the additional costs that would have been recorded assuming the fair value adjustments had been applied as of the beginning of the year preceding the year of the acquisition and excludes acquisition expense incurred related to the transactions.

5. Financial Services

Our Financial Services are principally comprised of our mortgage lending operations, Inspire Home Loans, Inc. (which we refer to as "Inspire"). Inspire is a full-service mortgage lender and primarily originates mortgage loans for our homebuyers. Inspire sells substantially all of the loans it originates and their related servicing rights in the secondary mortgage market within a short period of time after origination, generally within 30 days. Inspire primarily finances these loans under its mortgage repurchase facilities. Mortgage loans in process for which interest rates were committed to borrowers totaled approximately \$51.6 million and \$26.2 million at June 30, 2019 and December 31, 2018, respectively, and carried a weighted average interest rate of approximately 4.0%, and 4.7%, respectively. As of June 30, 2019 and December 31, 2018, Inspire had mortgage loans held for sale with an aggregate fair value of \$122.1 million and \$114.1 million, respectively, and an aggregate outstanding principal balance of \$116.4 million and \$108.0 million, respectively. Interest rate risks related to these obligations are mitigated by the preselling of loans to investors or through our interest rate hedging program.

Mortgage loans held-for-sale, including the rights to service the mortgage loans, as well as the derivative instrument used to economically hedge our interest rate risk, which are typically forward commitments on mortgage backed securities, are carried at fair value and changes in fair value are reflected in financial services revenue on the consolidated statement of operations. Management believes carrying loans held-for-sale at fair value improves financial reporting by mitigating volatility in reported earnings caused by measuring the fair value of the loans and the derivative instruments used to economically hedge them.

8. Warranties

Estimated future direct warranty costs are accrued and charged to cost of home sales revenues in the period when the related home sales revenues are recognized. Amounts accrued, which are included in accrued expenses and other liabilities on the consolidated balance sheets, are based upon historical experience rates. We subsequently assess the adequacy of our warranty accrual on a quarterly basis through an internal model that incorporates historical payment trends and adjust the amounts recorded if necessary. We increased our warranty reserve by \$202 thousand during the three months ended June 30, 2019, compared to a \$115 thousand decrease during the same period in 2018. We increased our warranty reserve by \$224 thousand during the six months ended June 30, 2019, compared to a \$160 thousand decrease during the same period in 2018. These adjustments are included in cost of home sales revenues on our condensed consolidated statements of operations. Changes in our warranty accrual are detailed in the table below (in thousands):

Issuance of 6.750% Senior Notes Due 2027

In May 2019, the Company completed a private offering of \$500.0 million aggregate principal amount of the Company's 6.750% Senior Notes due 2027 (the "2027 Notes") in reliance on Rule 144A and Regulation S under the Securities Act of 1933. The 2027 Notes were issued under the Indenture, dated as of May 23, 2019, among the Company, our subsidiary guarantors party thereto, and U.S. Bank National Association, as trustee (which we refer to as the "May 2019 Indenture," as it may be supplemented or amended from time to time). The 2027 Notes were issued at 100% of their principal amount and we received net proceeds of \$494.3 million. The 2027 Notes contain certain restrictive covenants on issuing future secured debt and other transactions. The aggregate principal balance of the 2027 Notes is due June 2027, with interest only payments due semi-annually in June and December of each year, beginning on December 1, 2019.

In connection with this issuance, the Company deferred \$5.7 million of issuance costs, which is presented in the notes payable line item of the condensed consolidated balance sheet.

Extinguishment of 6.875% Senior Notes Due 2022

During the three months ended June 30, 2019, the Company extinguished \$385.0 million in outstanding principal of our 6.875% Senior Notes due 2022 (the "2022 Notes"). The extinguishment was the result of two separate transactions whereby a tender offer validly tendered \$189.3 million of the 2022 Notes on March 23, 2019 and the remaining \$195.7 million was redeemed in accordance with the Indenture agreement on June 10, 2019. The transaction resulted in a loss of \$10.8 million, which is presented in loss on debt extinguishment in the consolidated statement of operations.

Revolving Line of Credit

We are party to an Amended and Restated Credit Agreement with Texas Capital Bank, National Association, as Administrative Agent and L/C Issuer, the lenders party thereto and certain of our subsidiaries, which, as amended most recently on February 12, 2019, provides us with a revolving line of credit of up to \$640.0 million, and unless terminated earlier, will mature on April 30, 2022. Under the terms of the Amended and Restated Credit Agreement, we may request a twelve-month extension of the maturity date. Our obligations under the Amended and Restated Credit Agreement are guaranteed by certain of our subsidiaries. The Amended and Restated Credit Agreement contains customary affirmative and negative covenants (including limitations on our ability to grant liens, incur additional debt, pay dividends, redeem our common stock, make certain investments and engage in certain merger, consolidation or asset sale transactions), as well as customary events of default. These covenants are measured as defined in the Amended and Restated Credit Agreement and are reported to the lenders quarterly. Borrowings under the Amended and Restated Credit Agreement bear interest at a floating rate equal to the adjusted Eurodollar Rate plus an applicable margin between 2.60% and 3.10% per annum, or, in the Administrative Agent's discretion, a base rate plus an applicable margin between 1.60% and 2.10% per annum. As of June 30, 2019, we had \$212.0 million outstanding under the credit facility and were in compliance with all covenants.

Mortgage Repurchase Facilities – Financial Services

On May 4, 2018 and September 14, 2018, Inspire entered into mortgage warehouse facilities, with Comerica Bank, and J.P. Morgan, respectively. The mortgage warehouse lines of credit (which we refer to as the "repurchase facilities") provide Inspire with uncommitted repurchase facilities of up to an aggregate of \$160 million, secured by the mortgage loans financed thereunder. Amounts outstanding under the repurchase facilities are not guaranteed by us or any of our subsidiaries and the agreements contain various affirmative and negative covenants applicable to Inspire that are customary for arrangements of this type. As of June 30, 2019, we had \$100.7 million outstanding under these repurchase facilities and were in compliance with all covenants thereunder. No assurance can be provided, however, that we will remain in compliance with the covenants or have continued access to these facilities or substitute or replacement facilities in an amount sufficient to fund our mortgage lending business. During the three months ended June 30, 2019 and 2018, we incurred interest expense on our repurchase facilities of \$0.9 million and \$0.3 million, respectively, which are included in financial services costs on our condensed consolidated statements of operations. During the six months ended June 30, 2019 and 2018, we incurred interest expense on our repurchase facilities of \$1.5 million and \$0.5 million, respectively.

10. Interest

Interest is capitalized to inventories while the related communities are being actively developed and until homes are completed. As our qualifying assets exceeded our outstanding debt during the three and six months ended June 30, 2019 and 2018, we capitalized all interest costs incurred during these periods, except for interest incurred on our mortgage repurchase facilities.

[Table of Contents](#)

Our interest costs are as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Interest capitalized beginning of period	\$ 59,121	\$ 46,160	\$ 53,842	\$ 41,762

Interest capitalized end of period	\$ 63,068	\$ 47,796	\$ 63,068	\$ 47,796

11. Income Taxes

At the end of each interim period we are required to estimate our annual effective tax rate for the fiscal year, and to use that rate to provide for income taxes for the current year-to-date reporting period. Our 2019 estimated annual effective tax rate of 27.1% is driven by our blended federal and state

statutory rate of 24.9%, and certain other permanent differences between GAAP and tax which increased our rate by 2.2%.

For the six months ended June 30, 2019 our estimated annual rate of 27.1% was impacted by discrete items which had a net impact of decreasing our rate by 1.6%, including excess tax benefits for vested stock-based compensation.

For the three months ended June 30, 2019 and 2018, we recorded income tax expense of \$5.3 million and \$13.3 million, respectively. For the six months ended June 30, 2019 and 2018, we recorded income tax expense of \$11.2 million and \$16.4 million, respectively.

12. Fair Value Disclosures

Accounting Standards Codification Topic 820, *Fair Value Measurement*, defines fair value as the price that would be received for selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and requires assets and liabilities carried at fair value to be classified and disclosed in the following three categories:

Level 1 — Quoted prices for identical instruments in active markets.

Level 2 — Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are inactive; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets at measurement date.

Level 3 — Valuations derived from techniques where one or more significant inputs or significant value drivers are unobservable in active markets at measurement date.

The following table presents carrying values and estimated fair values of financial instruments (in thousands):

[Table of Contents](#)

Estimated fair value of the secured notes receivable was based on cash flow models discounted at market interest rates that considered the underlying risks of the note.

(2) The mortgage loans held for sale are carried at fair value, which was based on quoted market prices for those committed mortgage loans.

(3) Estimated fair value of the senior notes incorporated recent trading activity in inactive markets.

(4) Carrying amount approximates fair value due to short-term nature and interest rate terms.

(5) Carrying amounts include any associated unamortized deferred financing costs, premiums and discounts. As of June 30, 2019 these amounts totaled \$5.7 million and \$4.2 million for the 6.750% senior notes and 5.875% senior notes, respectively. As of December 31, 2018, these amounts totaled \$4.4 million and \$4.6 million for the 6.875% senior notes and 5.875% senior notes, respectively.

The carrying amount of cash and cash equivalents approximates fair value. Non-financial assets and liabilities are measured at fair value when acquired in a business combination. Long-lived assets determined to be impaired are measured at fair value.

13. Stock-Based Compensation

During the six months ended June 30, 2019, we granted performance share units (which we refer to as “PSUs”) covering up to 0.3 million shares of common stock, assuming maximum level of performance, with a grant date fair value of \$22.01 per share that are subject to both service and performance vesting conditions. The quantity of shares that will vest under the PSUs ranges from 0% to 200% or 250% of a targeted number of shares for each participant and will be determined based on an achievement of a three year pre-tax income performance goal. During the six months ended June 30, 2019, we also granted restricted stock units (which we refer to as “RSUs”) covering 0.6 million shares of common stock with a grant date fair value of \$23.85 per share that vest over a three year period.

A summary of our outstanding RSUs and PSUs, assuming maximum level of performance, are as follows (in thousands, except years):

	As of June 30, 2019
Unvested units	1,257
Unrecognized compensation cost	\$ 20,418
Period to recognize compensation cost	1.8 years

During the three months ended June 30, 2019 and 2018, we recognized stock-based compensation expense of \$3.9 million and \$3.8 million, respectively. During the six months ended June 30, 2019 and 2018, we recognized stock-based compensation expense of \$7.5 million and \$6.3 million, respectively. Stock-based compensation expense is included in selling, general, and administrative expense on our condensed consolidated statements of operations.

14. Stockholders' Equity

Our authorized capital stock consists of 100.0 million shares of common stock, par value \$0.01 per share, and 50.0 million shares of preferred stock, par value \$0.01 per share. As of June 30, 2019 and December 31, 2018, there were 30.4 million and 30.2 million shares of common stock issued and outstanding, respectively.

On May 10, 2017, our stockholders approved the adoption of the Century Communities, Inc. 2017 Omnibus Incentive Plan (which we refer to as our "2017 Incentive Plan"), which replaced our First Amended & Restated 2013 Long-Term Incentive Plan. We had reserved a total of 1.8 million shares of our common stock for issuance under our First Amended & Restated 2013 Long-Term Incentive Plan, of which approximately 0.6 million shares rolled over into the 2017 Incentive Plan when it became effective. On May 8, 2019, our stockholders approved an amended and restated 2017 Omnibus Incentive Plan, which increased the number of shares of our common stock authorized for issuance under the 2017 Incentive Plan by an additional 1.631 million shares. We issued 0.4 million shares of our common stock related to the vesting of RSUs during the six months ended June 30, 2019, respectively.

On July 3, 2018, we entered into a Distribution Agreement with J.P. Morgan Securities LLC, Citigroup Global Markets Inc., and Merrill Lynch, Pierce, Fenner & Smith Incorporated, as sales agents pursuant to which we may offer and sell shares of our common stock having an aggregate offering price of up to \$100.0 million from time to time through any of the sales agents party thereto in "at-the-market" offerings. This Distribution Agreement, which superseded and replaced a prior similar Distribution Agreement, had \$69.9 million available for sale as of June 30, 2019. During the three and six months ended June 30, 2019, we sold and issued an aggregate of 0.1 million shares of our common stock under the Distribution Agreement, which provided proceeds of \$2.7 million, and in connection with such sales, paid total commissions and fees to the Sales Agents of \$0.1 million. During the three and six months ended June 30, 2018, we sold and issued an aggregate of 0.3 million and 0.5 million shares of our common stock under a prior Distribution Agreement, which provided proceeds of \$9.6 million and \$14.6 million, respectively, and, in connection with such sales, paid total commissions and fees to the Sales Agents of \$0.2 million and \$0.3 million respectively. The Distribution Agreement will remain in full force and effect until terminated by either party pursuant to the terms of the agreement or such date that the maximum offering amount has been sold in accordance with the terms of the agreement.

15. Earnings Per Share

We use the two-class method of calculating EPS, where applicable, as our previously issued non-vested restricted stock awards had non-forfeitable rights to dividends and, accordingly, represent a participating security. The two-class method is an earnings allocation method under which EPS is calculated for each class of common stock and participating security considering both dividends declared (or accumulated) and participation rights in undistributed earnings as if all such earnings had been distributed during the period. We use the treasury stock method to calculate the dilutive effect of our RSUs and PSUs as these awards do not have participating rights.

The following table sets forth the computation of basic and diluted EPS for the three and six months ended June 30, 2019 and 2018 (in thousands, except share and per share information):

	Three Months Ended June 30,		Six Months Ended June 30,

Diluted	\$ 0.51	\$ 1.10	\$ 1.07	\$ 1.77

Stock-based awards are excluded from the calculation of diluted EPS in the event they are subject to unsatisfied performance conditions or are antidilutive. We excluded 0.6 million common unit equivalents from diluted earnings per share during the three and six months ended June 30, 2019 related to the PSUs granted during the periods. We excluded 0.3 million common unit equivalents from diluted earnings per share during the three and six months ended June 30, 2018 related to the PSUs granted during the periods.

16. Commitments and Contingencies

Letters of Credit and Performance Bonds

In the normal course of business, we post letters of credit and performance bonds related to our land development performance obligations with local

municipalities. As of June 30, 2019, and December 31, 2018, we had \$294.3 million and \$289.8 million, respectively, in letters of credit and performance bonds issued and outstanding.

Litigation

We are subject to claims and lawsuits that arise primarily in the ordinary course of business, which consist primarily of construction defect claims. It is the opinion of our management that if the claims have merit, parties other than the Company would be, at least in part, liable for the claims, and the eventual outcome of these claims will not have a material adverse effect upon our consolidated financial condition, results of operations, or cash flows. When we believe that a loss is probable and estimable, we record a charge to selling, general, and administrative expense on our condensed consolidated statements of operations for our estimated loss.

Under various insurance policies, we have the ability to recoup costs in excess of applicable self-insured retentions. Estimates of such amounts are recorded in other assets when recovery is probable. As of December 31, 2018, substantially all of the amounts reflected in Insurance receivable and other were related to construction claims, which were settled and amounts collected under the applicable insurance policies during the quarter ended June 30, 2019.

We do not believe that the ultimate resolution of any claims and lawsuits will have a material adverse effect upon our consolidated financial position, results of operations, or cash flows.

17. Leases

Under ASC 842, the Company determines if a contract is or contains a lease at inception or modification of a contract. A contract is or contains a lease if the contract conveys the right to control the use of an identified asset for a period in exchange for consideration.

16

[Table of Contents](#)

Control over the use of the identified asset means the lessee has both (a) the right to obtain substantially all of the economic benefits from the use of the asset and (b) the right to direct the use of the asset.

We primarily enter into operating leases for the right to use office space, and computer and office equipment, which have lease terms that generally range from 1 to 7 years and often include one or more options to renew. We include renewal terms in the lease term when it is reasonably certain that we will exercise the option. For leases entered into after January 1, 2019, we establish a right of use asset and a lease liability at the commencement date of the lease based on the present value of future minimum lease payments. As the rate implicit in each lease is not readily determinable, we utilize our incremental borrowing rate in determining the present value of future minimum payments. Our incremental borrowing rate is determined based on information available at the commencement date. We account for the lease components and non-lease components as a single lease component. As of June 30, 2019, the Company had \$16.8 million and \$17.5 million recognized as a right of use asset and lease liability, respectively, which are presented on the consolidated balance sheet within prepaid expenses and other assets and accrued expenses and other liabilities, respectively. The Company has entered into various short-term operating leases, primarily for marketing billboards, with an initial term of twelve months or less. These leases are not recorded on the Company's condensed consolidated balance sheet.

Under both ASC 840 and ASC 842, operating lease expense is recognized on a straight-line basis over the lease term and was \$1.3 million and \$0.9 million for the three months ended June 30, 2019 and 2018, respectively. Operating lease expense was \$2.7 million and \$1.7 million for the six months ended June 30, 2019 and 2018, respectively.

18. Supplemental Guarantor Information

Our 5.875% senior notes due 2025 and 6.750% senior notes due 2027 (which we collectively refer to as our "Senior Notes") are our unsecured senior obligations and are fully and unconditionally guaranteed on an unsecured basis, jointly and severally, by substantially all of our direct and indirect wholly-owned operating subsidiaries (which we refer to collectively as "Guarantors"). In addition, our former 6.875% senior notes due 2022 which

were extinguished during the second quarter of 2019, were our unsecured senior obligations and were fully and unconditionally guaranteed on an unsecured basis, jointly and severally, by the Guarantors.

Each of the indentures governing our Senior Notes provides that the guarantees of a Guarantor will be automatically and unconditionally released and discharged: (1) upon any sale, transfer, exchange or other disposition (by merger, consolidation or otherwise) of all of the equity interests of such Guarantor after which the applicable Guarantor is no longer a “Restricted Subsidiary” (as defined in the

[Table of Contents](#)

respective indentures), which sale, transfer, exchange or other disposition does not constitute an “Asset Sale” (as defined in the respective indentures) or is made in compliance with applicable provisions of the applicable indenture; (2) upon any sale, transfer, exchange or other disposition (by merger, consolidation or otherwise) of all of the assets of such Guarantor, which sale, transfer, exchange or other disposition does not constitute an Asset Sale or is made in compliance with applicable provisions of the applicable indenture; provided, that after such sale, transfer, exchange or other disposition, such Guarantor is an “Immaterial Subsidiary” (as defined in the respective indentures); (3) unless a default has occurred and is continuing, upon the release or discharge of such Guarantor from its guarantee of any indebtedness for borrowed money of the Company and the Guarantors so long as such Guarantor would not then otherwise be required to provide a guarantee pursuant to the applicable indenture; provided that if such Guarantor has incurred any indebtedness in reliance on its status as a Guarantor in compliance with applicable provisions of the applicable Indenture, such Guarantor’s obligations under such indebtedness, as the case may be, so incurred are satisfied in full and discharged or are otherwise permitted to be incurred by a Restricted Subsidiary (other than a Guarantor) in compliance with applicable provisions of the applicable Indenture; (4) upon the designation of such Guarantor as an “Unrestricted Subsidiary” (as defined in the respective Indentures), in accordance with the applicable indenture; (5) if the Company exercises its legal defeasance option or covenant defeasance option under the applicable indenture or if the obligations of the Company and the Guarantors are discharged in compliance with applicable provisions of the applicable indenture, upon such exercise or discharge; or (6) in connection with the dissolution of such Guarantor under applicable law in accordance with the applicable indenture. The indenture governing our former 6.875% senior notes due 2022 contained a similar provision.

As the guarantees were made in connection with exchange offers effected in February 2015, October 2015 and April 2017 and the issuance of the 5.875% senior notes due 2025 and of the 6.750% senior notes due 2027, the Guarantors’ condensed financial information is presented as if the guarantees existed during the periods presented. If any Guarantors are released from the guarantees in future periods, the changes are reflected prospectively.

We have determined that separate, full financial statements of the Guarantors would not be material to investors, and accordingly, supplemental financial information is presented below:

within the meaning of the federal securities laws. Forward-looking statements relate to expectations, beliefs, projections, forecasts, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. These statements are only predictions. We caution that forward-looking statements are not guarantees. Actual events and results of operations could differ materially from those expressed or implied in the forward-looking statements. Forward-looking statements are typically identified by the use of terms such as “may,” “will,” “should,” “expect,” “could,” “intend,” “plan,” “anticipate,” “estimate,” “believe,” “continue,” “predict,” “potential” or the negative of such terms and other comparable terminology. You can also identify forward-looking statements by discussions of strategy, plans or intentions. Actual results and the timing of events may differ materially from those contained in these forward-looking statements due to a number of factors.

The forward-looking statements included in this Form 10-Q reflect our current views about future events and are subject to numerous known and unknown risks, uncertainties, assumptions and changes in circumstances that may cause our actual results to differ significantly from those expressed in any forward-looking statement. Statements regarding the following subjects, among others, may be forward-looking and subject to risks and uncertainties including among others:

- economic changes either nationally or in the markets in which we operate, including declines in employment, volatility of mortgage interest rates and inflation;

- a downturn in the homebuilding industry, including a decline in real estate values or market conditions resulting in impairment of our assets;

- changes in assumptions used to make industry forecasts;

- continued volatility and uncertainty in the credit markets and broader financial markets;

- our future operating results and financial condition;

- our business operations;

- changes in our business and investment strategy;

- availability of land to acquire, and our ability to acquire such land on favorable terms or at all;

- availability, terms and deployment of capital;

- availability of mortgage financing or an increase in the number of foreclosures in the market;

- shortages of or increased prices for labor, land or raw materials used in housing construction;

- delays in land development or home construction resulting from adverse weather conditions or other events outside our control;

- impact of construction defect, product liability, and/or home warranty claims, including the adequacy of accruals and the applicability and sufficiency of our insurance coverage;

- changes in, or the failure or inability to comply with, governmental laws and regulations;

- the timing of receipt of regulatory approvals and the opening of projects;

- the degree and nature of our competition;

- our leverage, debt service obligations and exposure to changes in interest rates;

- our ability to successfully integrate the acquired businesses and realize projected cost savings and other benefits;

- availability of qualified personnel and our ability to retain our key personnel;

- taxation and tax policy changes, tax rate changes, new tax laws, new or revised tax law interpretations or guidance, including as a result of the Tax Cuts and Jobs Act; and

- changes in GAAP.

Forward-looking statements are based on our beliefs, assumptions and expectations of future events, taking into account all information currently available to us. Forward-looking statements are not guarantees of future events or of our performance. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to us. Some of these events and factors are described above and in “Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations” and in “Part I, Item 1A. Risk Factors” in our Annual Report on Form 10-K, and other risks and uncertainties detailed in this and our other reports and filings with the SEC. If a change occurs, our business, financial condition, liquidity, cash flows and results of operations may vary materially from those expressed in or implied by our forward-looking statements. New risks and uncertainties arise over time, and it is not possible for us to predict the occurrence of those matters or the manner in which they may affect us. Overview

Century is engaged in the development, design, construction, marketing and sale of single-family attached and detached homes in the States of Alabama, Arizona, California, Colorado, Florida, Georgia, Indiana, Iowa, Michigan, Nevada, North Carolina, Ohio, South Carolina, Tennessee, Texas, Utah, and Washington. In many of our projects, in addition to building homes, we are responsible for the entitlement and development of the underlying land. We build and sell homes under our Century Communities and Wade Journey Homes brands. Our Century Communities brand targets a wide range of buyer profiles including: first time, first and second time move up, and lifestyle homebuyers, and provides our homebuyers with the ability to personalize their homes through certain option and upgrade selections. Our Wade Journey Homes brand solely targets first time homebuyers, sells homes through retail studios and over the internet, and provides no option or upgrade selections. Our homebuilding operations are organized into the following five reportable segments: West, Mountain, Texas, Southeast, and Wade Journey Homes. Additionally, our indirect wholly-owned subsidiaries, Inspire Home Loans, Inc., Parkway Title, LLC, and IHL Home Insurance Agency, LLC, which provide mortgage, title and insurance services, respectively, to our home buyers have been identified as our Financial Services segment.

Results of Operations

During the three and six months ended June 30, 2019, we delivered 1,967 and 3,630 homes, respectively, with an average sales price of \$309.4 thousand and \$311.8 thousand, respectively. These deliveries represent increases of 42.1% and 56.1%, respectively, as compared to the three and six months ended June 30, 2018. During the same periods, we generated approximately \$608.6 million and \$1,131.9 million in home sales revenues, respectively, approximately \$20.8 million and \$43.8 million in income before income tax expense, respectively, and approximately \$15.5 million and \$32.6 million, respectively, in net income.

For the three and six months ended June 30, 2019, our new home contracts, net of cancelations, totaled 2,182 and 4,040, respectively, a 41.4% and 38.3% increase over the same respective periods in 2018. As of June 30, 2019, we had a backlog of 2,591 homes, a 19.0% decrease as compared to June 30, 2018, representing approximately \$784.2 million in sales value, a 20.6% decrease as compared to June 30, 2018.

West

In our West segment, for the three and six months ended June 30, 2019, our income before income tax decreased by \$2.0 million and \$3.3 million, respectively, to \$10.0 million and \$18.6 million, respectively. During the three and six months ended June 30, 2019, we delivered 255 homes and 455 homes, respectively, with an average sales price of \$529.9 thousand and \$543.3 thousand, respectively, and generated \$135.1 million and \$247.2 million in home sales revenue, respectively, in the West. Our operating margins in the West were impacted during the three and six months ended June 30, 2019 by the geographic mix of deliveries.

Mountain

In our Mountain segment, for the three and six months ended June 30, 2019, our income before income tax decreased by \$2.8 million and \$1.4 million, respectively, to \$22.5 million and \$41.8 million, respectively. The decrease of income before income tax for the three and six months ended June 30, 2019 is primarily related to the geographic mix of deliveries and increased incentives.

Texas

In our Texas segment, for the three and six months ended June 30, 2019, our income before income tax increased by \$0.6 million and \$2.6 million, respectively, to \$5.6 million and \$9.3 million, respectively, as compared \$5.0 million and \$6.8 million for the same periods in 2018. The increase in income before income tax is primarily related to increases in the number of homes delivered during the three and six months ended June 30, 2019 as compared to the same periods in 2018, which was partially offset by a decrease in the average sales price as we continued to shift our focus towards first time homebuyers.

Southeast

In our Southeast segment, for the three and six months ended June 30, 2019, our income before income tax decreased by \$4.5 million and \$3.4 million, respectively, to \$4.6 million and \$10.4 million, respectively, as compared to \$9.1 million and \$13.8 million for the same periods in 2018. The decrease in income before income tax for the three and six months ended June 30, 2019 is primarily related to increases in our incentives across our markets.

Wade Journey Homes

On June 14, 2018, we acquired the remaining 50% ownership interest in WJH for \$37.5 million. For the three and six months ended June 30, 2019, we delivered 728 homes and 1,323 homes, respectively, with an average price of \$149.8 thousand and \$150.1 thousand, respectively, and generated \$109.1 million and \$198.6 million in home sales revenues in our WJH segment, respectively. Our income before income tax for the three and six months ended June 30, 2019 was \$8.3 million and \$12.3 million, respectively.

Financial Services

Our indirect wholly-owned subsidiaries, Inspire Home Loans, Inc., Parkway Title, LLC, and IHL Home Insurance Agency, LLC, which provide mortgage, title and insurance services, respectively, to our home buyers have been identified as our Financial Services segment. Substantially all of the loans we originate are sold in the secondary market within a short period of time after origination, generally within 30 days. During the three and six months ended June 30, 2019, income before income tax remained relatively consistent compared to the same periods during 2018.

Corporate

During the three and six months ended June 30, 2019, our Corporate segment generated losses of \$32.4 million and \$52.4 million, respectively, as compared to losses of \$7.4 million and \$19.7 million for the same periods in 2018. The increase in expenses during the three months ended June 30, 2019 was primarily attributed to the following: (1) a loss on debt extinguishment of \$10.8 million during the current period, (2) prior period income from equity in unconsolidated subsidiaries of \$11.7 million, and (3) nominal increases in numerous items associated with our increased scale. The increase in expenses during the six months ended June 30, 2019 was primarily attributed to the following: (1) a loss on debt extinguishment of \$10.8 million during the current period, (2) prior period income from equity in unconsolidated subsidiaries of \$14.8 million and (3) nominal increases in numerous items associated with our increased scale.

Homebuilding Gross Margin

(dollars in thousands)

Homebuilding gross margin represents home sales revenues less cost of home sales revenues. Our homebuilding gross margin percentage, which represents homebuilding gross margin divided by home sales revenues, decreased during the three and six months ended June 30, 2019 to 17.2%, as compared to 18.2% and 18.6%, respectively, for the same periods in 2018. The decreases are primarily related to the geographic mix of closings between periods and higher incentives throughout our markets.

(1) This non-GAAP financial measure should not be used as a substitute for the Company's operating results in accordance with GAAP. See the reconciliations to the most comparable GAAP measure and other information under "—Non-GAAP Financial Measures." An analysis of any non-GAAP financial measure should be used in conjunction with results presented in accordance with GAAP.

For the three and six months ended June 30, 2019, excluding interest in cost of home sales revenues and purchase price accounting for acquired work in process inventory, our adjusted homebuilding gross margin percentage was 19.6% and 19.7%, respectively, as compared to 22.3%, and 22.7%, respectively, for the same periods in 2018. The decreases primarily related to the geographic mix of closings between periods, continued cost pressure, and higher incentives throughout our markets. We believe the above information is meaningful as it isolates the impact that indebtedness and acquisitions have on our homebuilding gross margin and allows for comparability of our homebuilding gross margins to previous periods and our competitors.

Selling, General and Administrative Expense

Our selling, general and administrative expense increased \$11.6 million for the three months ended June 30, 2019 as compared to the same period in 2018. The increase was primarily attributable to the following: (1) an increase of \$3.9 million in commission expense resulting from a 16.6% increase in home sales revenues and our acquisition of WJH, (2) an increase of \$3.4 million in our compensation-related expenses, including incentive compensation associated with higher headcount to support our growth, and (3) an increase of \$0.7

million in advertising costs and (4) nominal increases in numerous items associated with our increased scale throughout selling, general and administrative to support our growth as well as settlements during the period.

Our selling, general and administrative expense increased \$24.0 million for the six months ended June 30, 2019 as compared to the same period in 2018. The increase was primarily attributable to the following: (1) an increase of \$9.4 million in our compensation-related expenses, including incentive compensation associated with higher headcount to support our growth, (2) an increase of \$8.4 million in commission expense resulting from a 23.4% increase in home sales revenues and our acquisition of WJH, (3) an increase of \$1.0 million in legal costs, (4) an increase in depreciation and amortization of \$0.8 million, and (5) nominal increases in numerous items associated with our increased scale throughout selling, general and administrative to support our growth.

Income Tax Expense

At the end of each interim period we are required to estimate our annual effective tax rate for the fiscal year, and to use that rate to provide for income taxes for the current year-to-date reporting period. Our 2019 estimated annual effective tax rate of 27.1% is driven by our blended federal and state statutory rate of 24.9%, and certain other permanent differences between GAAP and tax which increased our rate by 2.2%.

For the three months ended June 30, 2019, our estimated annual rate of 27.1% was impacted by discrete items which had a net impact of decreasing our rate by 1.7%, including excess tax benefits for vested stock-based compensation. For the three months ended June 30, 2019 and 2018, we recorded income tax expense of \$5.3 million and \$13.3 million, respectively.

For the six months ended June 30, 2019, our estimated annual rate of 27.1% was impacted by discrete items which had a net impact of decreasing our rate by 1.6%, including excess tax benefits for vested stock-based compensation. For the six months ended June 30, 2019 and 2018, we recorded income tax expense of \$11.2 million and \$16.4 million, respectively.

Our absorption rates decreased by 5.1% to 3.7 per month during the three months ended June 30, 2019, as compared to the same period in 2018. Our absorptions moderated primarily due to the timing of community openings in our Mountain region.

Our absorption rates decreased by 10.3% to 3.5 per month during the six months ended June 30, 2019, as compared to the same period in 2018. Our

absorptions moderated primarily due to the timing of community openings in our Mountain region.

Backlog reflects the number of homes, net of actual cancellations experienced during the period, for which we have entered into a sales contract with a customer but for which we have not yet delivered the home. At June 30, 2019, we had 2,591 homes in backlog with a total value of \$784.2 million, which represents a decrease of 19.0% and 20.6%, respectively, as compared to June 30, 2018. The decrease in backlog dollar value is primarily attributable to a decrease in the number of homes in backlog.

Supplemental Pro Forma Information

The supplemental pro forma information below presents pro forma combined financial and operating data reflecting the WJH acquisition as if it had occurred on January 1, 2018. The selected condensed combined pro forma data combines the historical home sales revenues, net new home contracts, new homes delivered and average sales price of homes delivered of Century and WJH. The pro forma information is for informational purposes only and supplements our condensed consolidated financial statements prepared in accordance with US GAAP. We believe that the pro forma information is useful as it provides additional information given the significant impact of the acquisition, and a reflection of how the combined business performed year over year that is not readily discernible from the actual year over year comparison. The pro forma information below does not purport to reflect the results of operations that would have occurred if WJH had been acquired on January 1, 2018, nor does the pro forma information purport to represent the results of operations of the Company for any future dates or periods.

Critical Accounting Policies

Critical accounting estimates are those that we believe are both significant and require us to make difficult, subjective or complex judgments, often because we need to estimate the effect of inherently uncertain matters. We base our estimates and judgments on historical experiences and various other factors that we believe to be appropriate under the circumstances. Actual results may differ from these estimates, and the estimates included in our financial statements might be impacted if we used different assumptions or conditions. A summary of our critical accounting policies is included in our Annual Report on Form 10-K for the fiscal year ended December 31,

Liquidity and Capital Resources

Overview

Our principal uses of capital for the three and six months ended June 30, 2019 were our land purchases, land development, home construction, and the payment of routine liabilities. We use funds generated by operations, available borrowings under our revolving credit facility, and from time to time proceeds from sales of common stock, including our current at-the-market facility, and debt securities to fund our short term working capital obligations and fund our purchases of land, as well as land development and home construction activities.

Cash flows for each of our communities depend on the stage in the development cycle, and can differ substantially from reported earnings. Early stages of development or expansion require significant cash outlays for land acquisitions, entitlements and other approvals, and construction of model homes, roads, utilities, general landscaping and other amenities. Because these costs are a component of our inventory and are not recognized in our statements of operations until a home closes, we incur significant cash outlays prior to our recognition of earnings. In the later stages of community development, cash inflows may significantly exceed earnings reported for financial statement purposes, as the cash outflow associated with home and land construction was previously incurred. From a liquidity standpoint, we are actively acquiring and developing lots in our markets to maintain and grow our lot supply and active selling communities. As we continue to expand our business, we expect that our cash outlays for land purchases and land development to grow our lot inventory will continue to exceed our cash generated by operations.

Our Financial Services operations use funds generated from operations, and availability under our mortgage repurchase facilities to finance operations including originations of mortgage loans to our homebuyers.

Under our shelf registration statement, which we filed with the SEC in July 2018 and was automatically effective upon filing, we have the ability to access the debt and equity capital markets in an aggregate offering amount of up to \$869 million, as needed as part of our ongoing financing strategy and subject to market conditions. Of this amount, up to \$100 million may be offered under our at-the-market distribution agreement referred to below.

We believe that we will be able to fund our current and foreseeable liquidity needs with our cash on hand, cash generated from operations, and cash expected to be available from our revolving credit facility or through accessing debt or equity capital, as needed.

Issuance of 6.750% Senior Notes Due 2027

In May 2019, the Company completed a private offering of \$500.0 million aggregate principal amount of the Company's 6.750% Senior Notes due 2027 (the "2027 Notes") in reliance on Rule 144A and Regulation S under the Securities Act of 1933. The 2027 Notes were issued under the Indenture, dated as of May 23, 2019, among the Company, our subsidiary guarantors party thereto, and U.S. Bank National Association, as trustee (which we refer to as the "May 2019 Indenture," as it may be supplemented or amended from time to time). The 2027 Notes were issued at 100% of their principal amount and we received net proceeds of \$494.3 million. The aggregate principal balance of the 2027 Notes is due June 2027, with interest only payments due semi-annually in June and December of each year, beginning on December 1, 2019.

In connection with this issuance, the Company deferred \$5.7 million of issuance costs, which is presented in the notes payable line item of the condensed consolidated balance sheet.

Extinguishment of 6.875% Senior Notes Due 2022

During the three months ended June 30, 2019, the Company extinguished \$385.0 million in outstanding principal of our 6.875% Senior Notes due 2022 (the "2022 Notes"). The extinguishment was the result of two separate transactions whereby a tender offer validly tendered \$189.3 million of the 2022 Notes on March 23, 2019 and the remaining \$195.7 million was redeemed in accordance with the Indenture agreement on June 10, 2019. The transaction resulted in a loss of \$10.8 million, which is presented in loss on debt extinguishment in the consolidated statement of operations.

Revolving Credit Facility

We are party to an Amended and Restated Credit Agreement with Texas Capital Bank, National Association, as Administrative Agent and L/C Issuer, the lenders party thereto and certain of our subsidiaries, which, as amended most recently on February 12, 2019, provides us with a revolving line of credit of up to \$640.0 million, and unless terminated earlier, will mature on April 30, 2022. Under the terms

[Table of Contents](#)

of the Amended and Restated Credit Agreement, we may request a twelve-month extension of the maturity date. Our obligations under the Amended and Restated Credit Agreement are guaranteed by certain of our subsidiaries. The Amended and Restated Credit Agreement contains customary affirmative and negative covenants (including limitations on our ability to grant liens, incur additional debt, pay dividends, redeem our common stock, make certain investments and engage in certain merger, consolidation or asset sale transactions), as well as customary events of default. These covenants are measured as defined in the Amended and Restated Credit Agreement and are reported to the lenders quarterly. Borrowings under the Amended and Restated Credit Agreement bear interest at a floating rate equal to the adjusted Eurodollar Rate plus an applicable margin between 2.60% and 3.10% per annum, or, in the Administrative Agent's discretion, a base rate plus an applicable margin between 1.60% and 2.10% per annum. As of June 30, 2019, we had \$212.0 million outstanding under the credit facility and were in compliance with all covenants.

At the Market Offerings

On July 3, 2018, we entered into a Distribution Agreement with J.P. Morgan Securities LLC, Citigroup Global Markets Inc., and Merrill Lynch, Pierce,

Fenner & Smith Incorporated, as sales agents pursuant to which we may offer and sell shares of our common stock having an aggregate offering price of up to \$100.0 million from time to time through any of the sales agents party thereto in “at-the-market” offerings. This Distribution Agreement, which superseded and replaced a prior similar Distribution Agreement, had \$69.9 million available for sale as of June 30, 2019. During the three and six months ended June 30, 2019, we sold and issued an aggregate of 0.1 million shares of our common stock under the Distribution Agreement, which provided proceeds of \$2.7 million, and in connection with such sales, paid total commissions and fees to the Sales Agents of \$0.1 million. During the three and six months ended June 30, 2018, we sold and issued an aggregate of 0.3 million and 0.5 million shares of our common stock under a prior Distribution Agreement, which provided proceeds of \$9.6 million and \$14.6 million, respectively, and, in connection with such sales, paid total commissions and fees to the Sales Agents of \$0.2 million and \$0.3 million respectively. The Distribution Agreement will remain in full force and effect until terminated by either party pursuant to the terms of the agreement or such date that the maximum offering amount has been sold in accordance with the terms of the agreement

Mortgage Repurchase Facility and Mortgage Warehouse Line of Credit – Financial Services

On May 4, 2018 and September 14, 2018 Inspire entered into mortgage warehouse facilities, with Comerica Bank and J.P. Morgan, respectively. The mortgage warehouse lines of credit (which we refer to as the “Repurchase Facilities”) provide Inspire with uncommitted repurchase facilities of up to \$160 million, secured by the mortgage loans financed thereunder. Amounts outstanding under the Repurchase Facilities are not guaranteed by us or any of our subsidiaries and the agreements contain various affirmative and negative covenants applicable to Inspire that are customary for arrangements of this type. As of June 30, 2019, we had \$100.7 million outstanding under these Repurchase Facilities and were in compliance with all covenants thereunder. No assurance can be provided, however, that we will remain in compliance with the covenants or have continued access to these facilities or substitute or replacement facilities in an amount sufficient to fund our mortgage lending business.

Letters of Credit and Performance Bonds

In the normal course of business, we post letters of credit and performance bonds related to our land development performance obligations with local municipalities. As of June 30, 2019 and December 31, 2018, we had \$294.3 million and \$289.8 million, respectively, in letters of credit and performance bonds issued and outstanding. Although significant development and construction activities have been completed related to the improvements at these sites, the letters of credit and performance bonds are not generally released until all development and construction activities are completed.

Debt

Our outstanding debt obligations included the following as of June 30, 2019 and December 31, 2018 (in thousands):

⁽¹⁾ The carrying value of senior notes reflects the impact of premiums, discounts, and issuance costs that are amortized to interest cost over the respective terms of the senior notes.

A summary of our debt obligations is included in Note 12 to our Annual Report on Form 10-K for the fiscal year ended December 31, 2018, filed with the SEC on February 13, 2019. For further information regarding our second quarter 2019 issuance of the 6.750% Senior Notes due 2027 and the extinguishment of our 6.875% Senior Notes due 2022, refer to Note 9 - Debt in Part I, Item 1 of this report.

Stock Repurchase Program

On November 6, 2018, our Board of Directors authorized a stock repurchase program, under which we may repurchase up to 4,500,000 shares of our outstanding common stock. The shares may be repurchased from time to time in open market transactions at prevailing market prices, in privately negotiated transactions or by other means in accordance with federal securities laws. The actual manner, timing, amount and value of repurchases under the stock repurchase program will be determined by management at its discretion and will depend on a number of factors, including the market price of our common stock, trading volume, other capital management objectives and opportunities, applicable legal requirements, and general market and economic conditions.

We intend to finance any stock repurchases through available cash and our revolving credit facility. Repurchases also may be made under a trading plan under Rule 10b5-1 under the Securities Exchange Act of 1934, which would permit shares to be repurchased when we otherwise may be precluded from doing so because of self-imposed trading blackout periods or other regulatory restrictions. There is no guarantee as to the number of shares that will be repurchased, and the stock repurchase program may be extended, suspended or discontinued at any time without notice at our

discretion. All shares of common stock repurchased under the program will be cancelled and returned to the status of authorized but unissued shares of common stock.

During the six months ended June 30, 2019, an aggregate of 83,000 shares were repurchased for a total purchase price of approximately \$1.4 million or an average of \$17.14 per share. No shares were repurchased during the three months ended June 30, 2019 and the three and six months ended June 30, 2018.

Cash Flows—Six Months Ended June 30, 2019 Compared to the Six Months Ended June 30, 2018

For the six months ended June 30, 2019 and 2018, the comparison of cash flows is as follows:

Our primary sources of cash flows from operations are from the sale of single family attached and detached homes and mortgages. Our primary uses of cash flows from operations is the acquisition of land and expenditures associated with the construction of our single family attached and detached homes and the origination of mortgages held for sale. During the six months ended June 30, 2019 and 2018, we used \$93.0 million and \$80.9 million in cash from operations,

34

[Table of Contents](#)

respectively. The increase in cash used from operations is primarily a result of a decrease in net income of \$20.6 million for the six months ended June 30, 2019 as compared to the six months ended June 30, 2018, partially offset by a loss on debt extinguishment of \$10.8 million during the six months ended June 30, 2019.

Net cash used in investing activities decreased to \$6.2 million during the six months ended June 30, 2019, compared to \$35.2 million used during the same period in 2018. The decrease was primarily related to our purchase of the remaining 50% ownership interest in WJH last year.

Net cash provided by financing activities was \$97.5 million during the six months ended June 30, 2019, compared to \$46.4 million during the same period in 2018. This increase was primarily attributable to net proceeds received from the issuance of the 2027 Notes and proceeds from insurance notes payable, partially offset by a decrease in net draws on our revolving credit facility.

As of June 30, 2019, our cash and cash equivalents and restricted cash balance was \$34.8 million.

Off-Balance Sheet Arrangements

In the ordinary course of business, we enter into land purchase contracts in order to procure lots for the construction of our homes. We are subject to customary obligations associated with entering into contracts for the purchase of land and improved lots. These purchase contracts typically require a cash deposit, and the purchase of properties under these contracts is generally contingent upon satisfaction of certain requirements, including obtaining applicable property and development entitlements. We also utilize option contracts with land sellers and others as a method of acquiring land in staged takedowns, to help us manage the financial and market risk associated with land holdings, and to reduce the use of funds from our corporate financing sources. Option contracts generally require payment by use of a non-refundable deposit for the right to acquire lots over a specified period of time at pre-determined prices. Our obligations with respect to purchase contracts and option contracts are generally limited to the forfeiture of the related non-refundable cash deposits. As of June 30, 2019, we had outstanding purchase contracts and option contracts for 16,988 lots totaling \$371.6 million and had \$41.4 million of non-refundable cash deposits pertaining to land option contracts. While our performance, including the timing and amount of purchase, if any, under these outstanding purchase and option contracts is subject to change, we currently anticipate performing on 50% to 60% of the purchase and option contracts during the next twelve months, with performance on the remaining purchase and option contracts occurring in future periods, if at all.

Our utilization of land option contracts is dependent on, among other things, the availability of land sellers willing to enter into option takedown arrangements, the availability of capital to financial intermediaries to finance the development of optioned lots, general housing market conditions, and local market dynamics. Options may be more difficult to procure from land sellers in strong housing markets and are more prevalent in certain geographic regions.

We post letters of credit and performance bonds related to our land development performance obligations, with local municipalities. As of June 30, 2019 and December 31, 2018, we had \$294.3 million and \$289.8 million, respectively, in letters of credit and performance bonds issued and outstanding. We anticipate that the obligations secured by these performance bonds and letters of credit generally will be performed in the ordinary course of business.

Non-GAAP Financial Measures

In this Form 10-Q, we use certain non-GAAP financial measures, including EBITDA, Adjusted EBITDA, net debt to net capital, and adjusted net earnings per diluted common shares. These non-GAAP financial measures are presented to provide investors additional information to facilitate the comparison of our past and present operations. We believe these non-GAAP financial measures provide useful information to investors because they are used to evaluate our performance on a comparable year-over-year basis. These non-GAAP financial measures are not in accordance with, or an alternative for, GAAP measures and may be different from non-GAAP financial measures used by other companies. In addition, these non-GAAP financial measures are not based on any comprehensive or standard set of accounting rules or principles. Accordingly, the calculation of our non-GAAP financial measures may differ from the definitions of other companies using the same or similar names limiting, to some extent, the usefulness of such measures for comparison purposes. Non-GAAP financial measures have limitations in that they do not reflect all of the amounts associated with our financial results as determined in accordance with GAAP. These measures should only be used to evaluate our financial results in conjunction with the corresponding GAAP measures. Accordingly, we qualify our use of non-GAAP financial information in a statement when non-GAAP financial information is presented.

EBITDA and Adjusted EBITDA

The following table presents EBITDA and adjusted EBITDA for the three and six months ended June 30, 2019 and 2018. Adjusted EBITDA is a non-GAAP financial measure we use as a supplemental measure in evaluating operating performance. We define adjusted EBITDA as consolidated net income before (i) income tax expense, (ii) interest in cost of home sales revenues, (iii) other interest

35

[Table of Contents](#)

expense, (iv) depreciation and amortization expense, (v) loss on debt extinguishment, and (vi) adjustments resulting from the application of purchase accounting for acquired work in process inventory related to business combinations and purchase price accounting for investment in unconsolidated subsidiaries, and (vii) acquisition expense. We believe adjusted EBITDA provides an indicator of general economic performance that is not affected by fluctuations in interest rates or effective tax rates, levels of depreciation or amortization, and items considered to be non-recurring. Accordingly, our management believes that this measurement is useful for comparing general operating performance from period to period. Adjusted EBITDA should be considered in addition to, and not as a substitute for, consolidated net income in accordance with GAAP as a measure of performance. Our presentation of adjusted EBITDA should not be construed as an indication that our future results will be unaffected by unusual or non-recurring items. Our adjusted EBITDA is limited as an analytical tool and should not be considered in isolation or as a substitute for analysis of our results as reported under GAAP.

Net Homebuilding Debt to Net Capital

The following table presents our ratio of net homebuilding debt to net capital, which is a non-GAAP financial measure. We calculate this by dividing net homebuilding debt (senior notes payable and borrowing under our revolving line of credit less cash and cash equivalents and cash held in escrow) by net capital (net homebuilding debt plus total stockholders' equity). The most directly comparable GAAP measure is the ratio of debt to total capital. We believe the ratio of net homebuilding debt to net capital is a relevant and useful financial measure to investors in understanding the leverage employed in our operations and as an indicator of our ability to obtain external financing.

Adjusted Diluted Earnings per Share

Adjusted diluted earnings per share (which we refer to as "Adjusted Diluted EPS") is a non-GAAP financial measure that we believe is useful to management, investors and other users of our financial information in evaluating our operating results and understanding our operating trends without the effect of certain non-recurring items. We believe excluding certain non-recurring items provides more comparable assessment of our financial results from period to period. Adjusted Diluted EPS is calculated by excluding loss on debt

extinguishment, gain on previously held interest in WJH and the effect of acquisition costs and purchase price accounting for acquired work in

process from the calculation of reported earnings per share.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Interest Rates

Market risk is the risk of loss arising from adverse changes in market rates and prices, such as interest rates, foreign currency exchange rates and commodity prices. Our primary exposure to market risk is interest rate risk associated with our Amended and Restated Credit Agreement Borrowings under the Amended and Restated Credit Agreement bear interest at a floating rate equal to the adjusted Eurodollar Rate plus an applicable margin between 2.60% and 3.10% per annum, or, in the Administrative Agent's discretion, a base rate plus an applicable margin between 1.60% and 2.10% per annum. The "applicable margins" described above are determined by a schedule based on the leverage ratio of the Company, as defined in the Amended and Restated Credit Agreement. The Amended and Restated Credit Agreement also provides for fronting fees and letter of credit fees payable to the L/C Issuer and commitment fees payable to the Administrative Agent equal to 0.20% of the unused portion of the revolving line of credit.

For fixed rate debt, such as our senior notes, changes in interest rates generally affect the fair value of the debt instrument, but not our earnings or cash flows.

In our Financial Services business, we utilize mortgage-backed securities, forward commitments, option contracts and investor commitments to protect the value of rate-locked commitments and loans held-for-sale from fluctuations in mortgage-related interest rates. To mitigate interest risk associated with loans held-for-sale, we use derivative financial instruments to hedge our exposure to risk from the time a borrower locks a loan until the time the loan is securitized. We also hedge our interest rate exposure through entering into interest rate swap futures.

Inflation

Our homebuilding operations can be adversely impacted by inflation, primarily from higher land, financing, labor, material and construction costs. In addition, inflation can lead to higher mortgage rates, which can significantly affect the affordability of mortgage financing to homebuyers. While we attempt to pass on cost increases to customers through increased prices, when weak housing market conditions exist, we are often unable to offset

cost increases with higher selling prices.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our co-principal executive officers and principal financial officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures (as such term is defined under Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (which we refer to as the “Exchange Act”)) as of June 30, 2019, the end of the period covered by this Form 10-Q. Based on this evaluation, our co-principal executive officers and principal financial officer concluded that our disclosure controls and procedures were effective as of June 30, 2019 in providing reasonable assurance that information required to be disclosed by us in the reports that we file or furnish under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms.

Changes in Internal Control over Financial Reporting

There were no changes during the second quarter of 2019 in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS.

Because of the nature of the homebuilding business, we and certain of our subsidiaries and affiliates have been named as defendants in various claims, complaints and other legal actions arising in the ordinary course of business. In the opinion of our management, the outcome of these ordinary course matters will not have a material adverse effect upon our financial condition, results of operations or cash flows.

ITEM 1A. RISK FACTORS.

There have been no material changes to the risk factors we previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2018 that was filed with the SEC on February 13, 2019.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.
